In the final year of my engineering program at **EPITA**, I am seeking an internship in system administration or software development to apply my skills and gain new ones.

WORK EXPERIENCES

Forge | Lyon (FR) / Paris (FR) / Remote

Software Engineer since 2021

Developing and maintaining a micro-services infrastructure for a computer science school (3000+ students).

- Develop software with Java and Python.
- Automate services with IaC.
- Support teachers on grading tools.
- Improve system performance through research and benchmarking.

MineOfWar | Remote

Lead Technical Engineer since 2019

Leading three technical teams (SysAdmin, Web, Back) for Minecraft game servers.

- Began as a Java developer, creating Minecraft mods.
- Lead innovative projects which increase incomes by 20%.
- Manage hybrid AWS and bare metal architecture for 80+ players.

SAUV'Life | Remote

Full stack developer 2018 - 2019

- Learned company stack (Symfony) for website creation.
- Collaborated with the UI/UX team to develop a user-friendly validation portal for 1300+ users.

SDIS 38 | Isère (FR)

Firefighter since 2018

- Efficiently respond to emergencies, adapting communication to calm situations.
- Skilled in teamwork and problem-solving in high-stress environments.
- Weekly instruction for adolescents aged 12-16 in firefighting.

Atelier-Lyon (Makerspace) | Lyon (FR)

Manager since 2023

- Mentor students in maker culture and offer technical guidance.
- Ensure workshop safety and machine functionality.
- Manage open-source infrastructure with Proxmox, Ansible, and Terraform.
- Create DIY projects from scratch (electronics, 3D printing, robotics, woodworking).

HARD SKILLS

DevSecOps / MLOps
AWS, Azure, GCP
Git, Docker, PostgreSQL
Java, Rust, C++, SQL, C#
Software Programming
System Administration

LANGUAGES

French: native
English: professional
(TOEIC: 910)

SOFT SKILLS

Innovation
Critical-Thinking
Creativity
Problem-solving
Self-learning
Independence

INTERESTS

DevOps
Hardware
DIY
Firefighting
Video Making

EDUCATION

EPITA | Lyon / Paris

Computer Engineering degree Since 2019

Industrial computer science, R&D and Cybersecurity

- Programming projects (mini-shell, mini-compiler, mini-webserver...)
- AI projects (OCR, data visualisation, model deployment...)
